## European Projects

One of the most relevant directories of the Chamber of Commerce and Industry of Tirana is also the Project Department office. During these years CCIT has contributed to the implementation of Cross Border Cooperation European programs in the framework of European Integration.

- CCI Tirana is Albania's biggest business support organization, giving consultancy to businesses regarding their issues. It operates in the management of a series of projects, mainly implemented in partnership with other partners abroad funded by different Programs of the European Commission, such as the transboundary programs or the ones of South-East Europe.

CCI Tirana organizes a certain number of training with employees of different businesses according to the relevant subjects based on their interests, including the issues of strategic management and business planning, financial management, project management, internationalization, marketing, etc.

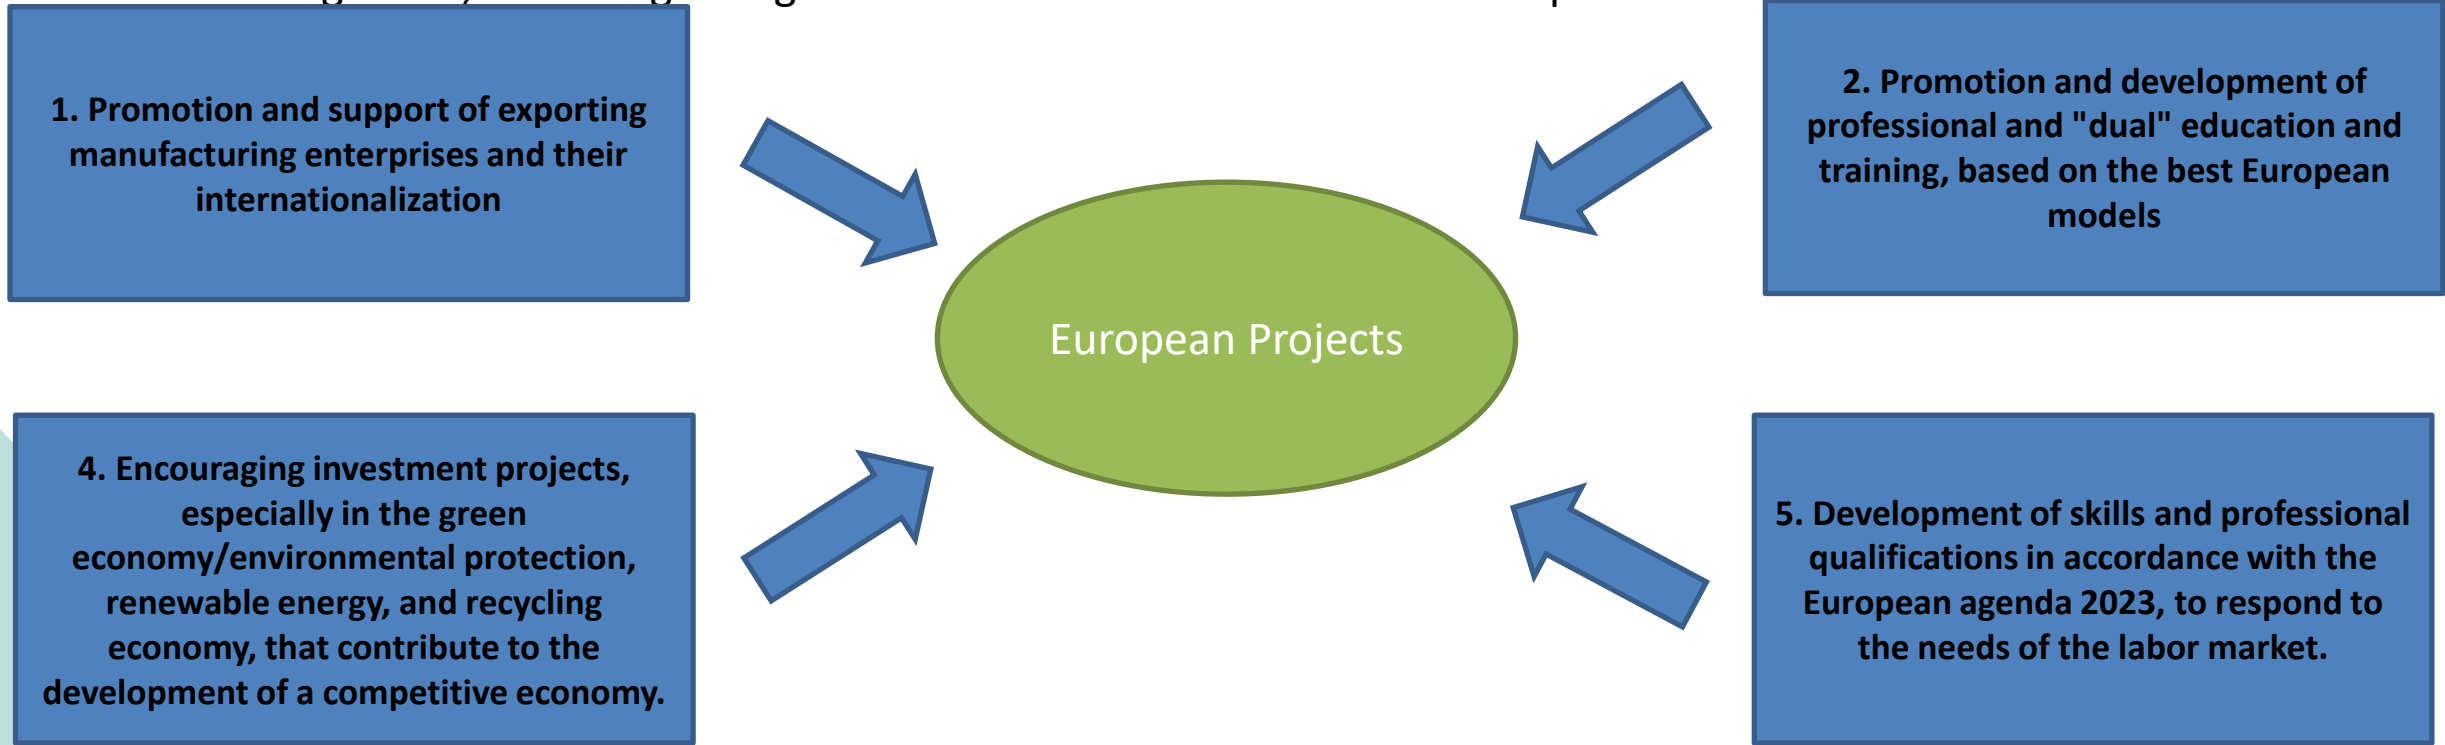

CCIT provides a specialized judicial and technical consultancy for its own members and for all the businesses that operate in the district of Tirana in the Field of Intellectual Ownership (Trademarks and service brands, invention patents, geographical nominations, copyright, defending the cases of the industrial ownership at the courts of all the levels, specialized consultancy at public and private Universities).

## CCIT- Objectives

The aim of CCI Tirana is to contribute to the realization of business missions with international partners in Albania or in other foreign countries with its own initiative as well as a part of the government delegations, attracting foreign investments to Albania and their cooperation with Albanian investors.

## CCIT Project Activities

More than 250 participants were involved in all activities organized by the CCIT
