Environmental protection and sustainable development policy of the University of Novi Sad

1. Protection and improvement of the environment, reducing the direct impact of the University on the environment and climate change;
2. Raising academic excellence to enable positive change through education, research and knowledge transfer;
3. Raising awareness of issues of environmental protection and sustainable development and providing opportunities to develop skills and knowledge in this area;
4. Develop excellence and relevance of scientific research work in the field of environmental protection and sustainable development;
5. Creating an environment in which the university community is engaged, empowered and supported in improving their personal and collective practices in the field of environmental protection and sustainable development;
6. Spreading the University's positive impact on sustainable development at the local, national and international levels through communication, cooperation and partnership;
7. Compliance with regulations in the field of environmental protection.
