

## jOiNEd For sUsTainability - bUilding climate REsilient communities in WB and EU

### Project Management Meeting CCIT- Contribution to ONE Future project

June 15th 2023  
**LUND**

Co-funded by the  
European Union

## CCIT's contribution in 1Future

Conduct surveys and interviews with public and private institutions, business communities & stakeholders

Identify opportunities and risks associated with undertaking climate projects and actions within & between triple helix....

Develop tailor-made courses for addressing Students' and professional's needs for raising climate and sustainability awareness

Design students and staff internships in selected business and public organizations and select representative case studies

Develop Quality Assurance(QA) mechanisms and agree on the procedures.

Develop and update a dissemination, communication and exploitation plan

Social Media Promotions

Co-funded by the European Union

## Projects focused on the green agenda

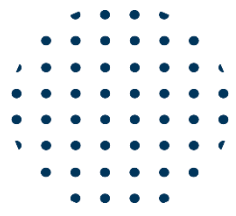

- Strengthening the connection between the VET and the labor market
- The AdduPT Project foresees addressing the needs of the VET sector in three WBC - AI, BIH & MNE –which face common challenges in skills mismatching between VET offers and employers' requirements.

The main objective of FUTURE 4.0 Plus project is to implement actions for the valorization of the knowledge capital produced by the previous funded project FUTURE 4.0 making it widely available, particularly for companies and training institutions that are approaching the transition to a more green and digital dimension.

## Businesses Sustainability against climate change challenge

- ❑ The project “Promoting knowledge for fostering businesses engagement in climate adaptation action”
- ❑ Actions undertaken by private sector to improve their resilience
- ❑ Constraints in implementing adaptation strategies in Albania
- ❑ Potential Future Research- The role of academia

The project main objective is the realization of a common and innovative ADRION's Network dedicated to SMEs, Research Institutions and Business Support Organizations with aim of improving SME's competitiveness and innovation in the Nautical sector and supporting their internationalization. In particular, the main objectives are:

- to tackle the lack of innovative collaboration among SMEs across the Adriatic-Ionian area,
- to realize concrete possibilities of cooperation in terms of process and products innovation among SMEs in the ADRION zone.

## Training center

The Training Center part of (CCIT) was founded in 2009, with the aim of helping Albanian businesses to increase the capacity of human resources capable of meeting the challenges of the country's development.

- ✓ high-level training courses with the relevant training modules related to the areas as following: accounting, auditing, tax, legislation for commercial companies, tax system, customs, vocational training, business management, project management, marketing, cyber security, e-commerce, competition law, etc.
- ✓ The e-learning and hybrid methods using new innovation tools have been offered since 2020.
- ✓ "tailor made" training, based on the need assessment that a company or business has in order to improve their capacity related to the personal and interpersonal development of professionals' training fields.

## CCIT Project & Training Activities

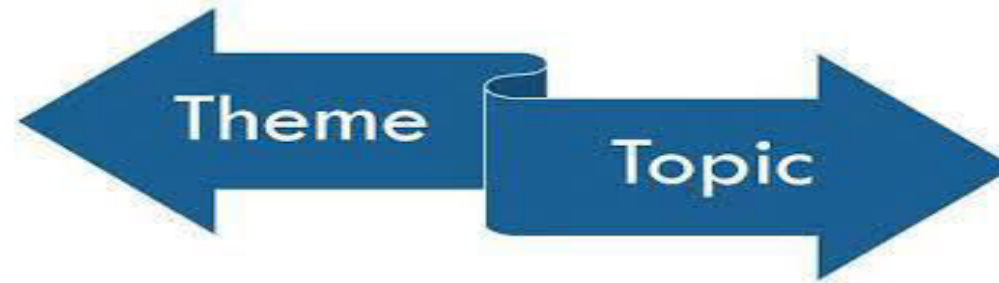

15 Workshops were organized in the post-pandemic period.

2-3 trainings per month, with a participation of 15-16 people

- ✓ Environmental Law and Regulation Training
- ✓ Sustainable Marketing and Communication Training
- ✓ Sustainable Finance and Investment Training
- ✓ Circular Economy and Waste Reduction Training
- Sustainable Supply Chain Management, Carbon Foot printing and Reduction Training, Renewable Energy & Technology
- Environmental and Social Governance (ESG) Training

Thank you for your attention!
