

## JOINED For Sustainability - Building climate Resilient communities in WB and EU

**WP2: Task 2.4 Conduct surveys and interviews with public and private institutions, business communities and other stakeholders**

*Preliminary analysis*

**UNIVERSITY OF MONTENEGRO**

Date: 5<sup>th</sup> December 2023

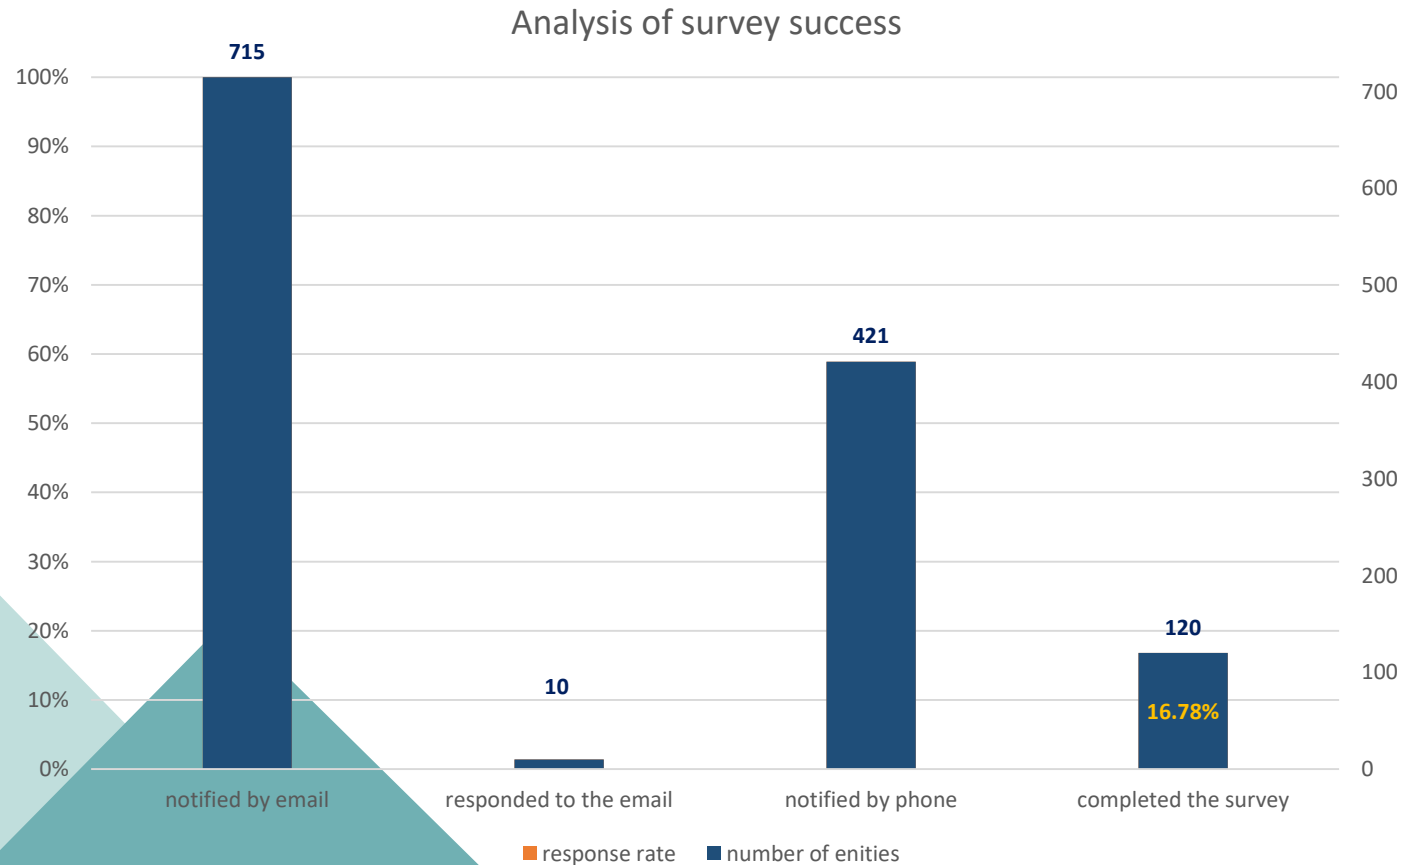

Place: NOVI SAD

## ADOPTED QUESTIONNAIRE METHODOLOGY

1. Online questionnaire
2. Period: October-November 2023
3. Google form to store the data (slightly adapted form)
4. Notification of participants via email, with notifications about the research (subject, objective, participants and deadlines)
5. Additional notification of participants via Viber messages or by phone

## PRELIMINARY PERFORMANCE INDICATORS OF THE SURVEY

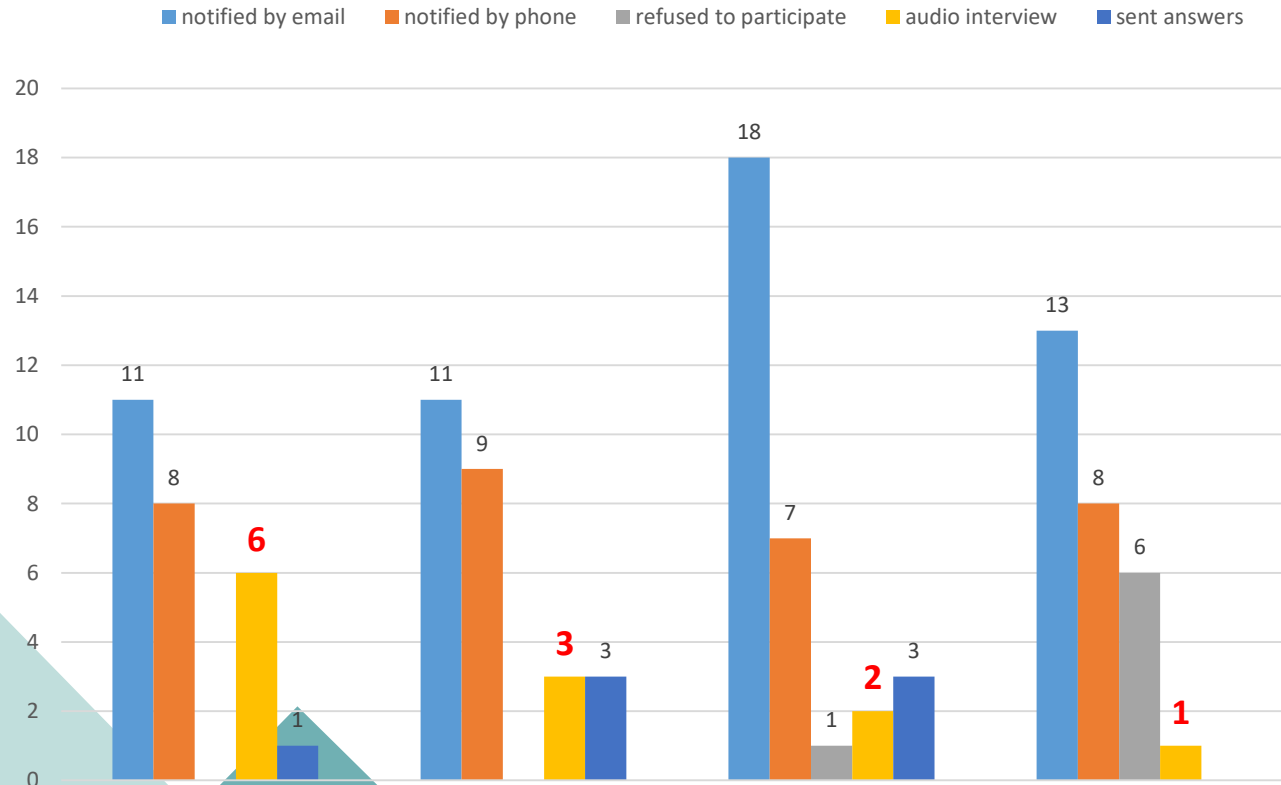

- **Problems:**
  - incorrect email addresses
  - incorrect phone numbers
  - the subject's lack of interest in participating in the survey
  - mostly entities from the field of construction participated, since our partner was the Chamber of Engineers of Montenegro
- **Questions:**
  - Will the analysis be done for each country individually, or for all the countries of the Western Balkans?
- **Next steps**
  - it is necessary to establish a precise system of analysis of the survey

## ADOPTED INTERVIEW METHODOLOGY

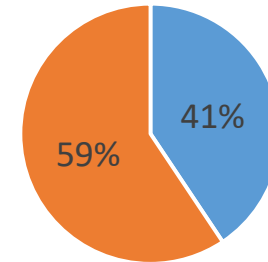

1. Face to face interview (in some cases, participants sent us answers, without the face to face interview)
2. Period: October–November 2023
3. Interviewer training
4. Notification of participants via email, with notifications about the research (subject, objective, participants, conditions, questions and deadlines)
5. Additional notification of the participants by phone and agreement on the appointment
6. Interview transcription and /or summarizing

## PRELIMINARY PERFORMANCE INDICATORS OF THE INTERVIEW

GAB	Government administrative body
IE	Institution of secondary or higher education
LGA	Local government authority
OPI	Other public institutions

■ non-participants ■ interview

- **Problems:**
  - incorrect phone numbers
  - the subject's lack of interest in participating in the interview
  - subjects avoided audio recording of the interview
  - a large number of participants gave answers based on their institutional role in the field of environmental protection, climate change and sustainable development
- **Next steps**
  - it is necessary to establish a precise system of analysis of the interview in order to be able to draw some statistical conclusions

## Thank you for your attention
