Climate and Sustainability Plans

Project Meeting
ULA

*Date: 19th April, 2024
Place: IUAV Venezia, Aula
G*

Co-funded by the
European Union

Executive summary

At Luarasi University, we recognize the urgent need for a comprehensive response to the challenges posed by climate change and the imperative of sustainable development. The 1Future project offers a roadmap that charts our path toward a greener and more sustainable future, ensuring our community's and the planet's well-being.

Objectives of the plan

- Environmental Sustainability in Academics: Teaching, Learning and Research,
- Promoting renewable energy use,
- Reducing carbon footprint,
- Fostering sustainable practices across University.

Strategies and initiatives proposed to achieve the objectives

- Implementing energy-efficient technologies.
- Encouraging waste reduction and recycling programs.
- Promoting sustainable transportation options.
- Integrating sustainability into academic curricula and research endeavors.
- Highlight partnerships with local communities, businesses, and organizations to enhance sustainability efforts.
- Budget and Resources (National/International Projects, Own Funds, Sponsorship, Volunteer Support)

In conclusion, our draft climate and sustainability plan embodies our university's commitment to responsible environmental practices and sets a course for a more sustainable future. We look forward to your feedback and collaboration as we work towards finalizing and implementing this crucial initiative.

Thank you for your attention
